

Certified Repair Authorization

4340 NE 49th Avenue | Gainesville, FL 32609

Phone: 352-373-5482 | Fax: 352-373-8366

In accordance to our Manufacturer's Certifications, Buchholz Paint and Autobody has the ability to offer Certified Collision Repairs to our clients. This option is voluntary but recommended. If you choose a Certified Collision Repair all repairs will be completed with all OEM parts; no aftermarket or salvaged parts will be used on your vehicle repair. Insurance Companies are not obligated to pay for factory parts or a Certified Repair. You, the client and/or vehicle owner, will be responsible for the cost differential from salvaged or aftermarket parts to OEM parts. It is highly recommended to opt-in for Certified Collision Repairs if your vehicle is still within the factory warranty; by doing so Manufacturer's cannot void a warranty for a vehicle that has previously had a Certified Collision Repair.

Please read the following statements carefully and mark your selection:

- After review of the above statement, ***I am authorizing*** Buchholz Paint and Autobody to perform and complete a Certified Collision Repair on my vehicle.

- After review of the above statement, ***I am declining*** the option for Buchholz Paint and Autobody to perform and complete a Certified Collision Repair on my vehicle.
